

Q4 2010 Timberland Factory Disclosure

This list includes active factories as of December 31, 2010. Although our supply chain sources may change from time to time, the list represents our best attempt to disclose all of Timberland's active factories as of that date. We believe, along with others in our industry, that factory disclosure and collaboration can create common standards and shared solutions – helping to advance global human rights in all of our factories.

The factories on this list include Footwear (FTWR) manufacturers, our footwear leather suppliers (TAN) and global contract non-leather suppliers (SUPP); our Timberland Apparel (APP) manufacturers and those producing for SmartWool (SW), Howies (HOW), Ipath (IPATH) and GoLite (GL); as well as those factories that produce for our Distributors (DIS) and most Licensees (LIC). This list includes the names and locations of factories used by GoLite and for eight of our other Licensees (LIC). Please note that there are four licensees for which we are not contractually able to disclose their factories at this time.

The factory list includes the name, address and business unit for each location. Locations whose designations are marked with a star (*) are those factories that have received Partner of Excellence status in our assessment process. Partners of Excellence are suppliers that score Partner level for two consecutive years in our assessment process. Achieving Partner level requires more than compliance; it requires management systems, worker involvement, stakeholder engagement, and continuous improvement. Maintaining Partner status is evidence of a supplier's dedicated commitment and sustained success in providing superior workplace conditions. We are confident that factories who are Partners of Excellence have effective management systems and a strong commitment to actively addressing social and environmental concerns. As such, these factories receive Code of Conduct assessments every other year. As an ongoing assurance, Partners of Excellence agree to allow Timberland assessors to visit between assessments (announced or unannounced) and/or provide updated information as requested. They are also required to notify Timberland of any new subcontractors, prominently display Timberland's Code of Conduct poster, and ensure that workers remain informed of how to contact their Timberland assessor with questions, issues or concerns.
